

III.- OTRAS DISPOSICIONES Y ACTOS

Consejería de Desarrollo Sostenible

Acuerdo de 19/01/2021, del Consejo de Gobierno, por el que se inicia el procedimiento para la modificación del Decreto 215/2010, de 28 de septiembre, por el que se aprueba el Plan de Ordenación de los Recursos Naturales de la Sierra Norte de Guadalajara y se inicia el procedimiento para la declaración del Parque Natural de la Sierra Norte de Guadalajara. [2021/740]

La Ley 9/1999, de 26 de mayo, de Conservación de la Naturaleza de Castilla-La Mancha incluye, entre los principios generales recogidos en el artículo 3, “La mejora de la calidad de vida de todas las comunidades rurales, con especial atención a las involucradas en proyectos concretos de conservación y la promoción de modelos de desarrollo rural ambientalmente adecuados y sostenibles, armonizando las actividades productivas con la conservación de la naturaleza”.

El objetivo específico del Plan de Ordenación de los Recursos Naturales de la Sierra Norte (en adelante PORN) de Guadalajara es asegurar la conservación de los valores naturales de la zona, procurando su restauración cuando se encuentren degradados, así como fomentar los aprovechamientos tradicionales y el turismo de naturaleza, de forma que queden sentadas las bases de un desarrollo sostenible.

El PORN de la Sierra Norte de Guadalajara, aprobado mediante Decreto 215/2010, de 28 de septiembre, prevé el establecimiento de la figura de protección de Parque Natural para el espacio natural localizado en la provincia de Guadalajara, en los términos municipales de El Cardoso de la Sierra, Cantalojas, Galve de Sorbe, Condemios de Arriba, Condemios de Abajo, Albendiego, Ujados, Miedes de Atienza, La Miñosa, Prádena de Atienza, Atienza, Robledo de Corpes, Gascueña de Bornova, Hiendelaencina, Villares de Jadraque, Bustares, Pedanía La Nava de Jadraque, Las Navas de Jadraque, El Ordial, Arroyo de las Fraguas, La Huerce, Monasterio, Zarzuela de Jadraque, La Toba, Semillas, Tamajón, Arbancón, Cogolludo, Retiendas, Valdesotos, Tortuero, Puebla de Valles, Valdepeñas de la Sierra, Valverde de los Arroyos, Majaelrayo y Campillo de Ranas, ocupando una superficie aproximada de 117.898 hectáreas, por reunir los requisitos señalados en el artículo 41 de la Ley 9/1999, de 26 de mayo, de Conservación de la Naturaleza.

Con fecha 22 de marzo de 2011, se publica en el Diario Oficial de Castilla-La Mancha la Ley 5/2011, de 10 de marzo, de Declaración del Parque Natural de la Sierra Norte de Guadalajara.

En el artículo 9 de la Ley 5/2011, de 10 de marzo, de Declaración del Parque Natural de la Sierra Norte de Guadalajara se establece una Zona Periférica de Protección sobre el territorio señalado en el Anejo 3, con una superficie estimada en 6.708 ha, destinada a prevenir y evitar la incidencia de impactos externos.

Por otro lado, 43 de estos núcleos urbanos están enclavados total o parcialmente en el perímetro del Parque Natural. En el momento de la delimitación del Parque Natural se optó, a diferencia del criterio seguido en el resto de los Parques Naturales declarados en Castilla-La Mancha, por ajustar los límites del Parque Natural a los de los núcleos urbanos enclavados total o parcialmente en el mismo. A lo largo de los años transcurridos desde la declaración del Parque Natural de la Sierra Norte de Guadalajara en marzo de 2011, se ha podido comprobar que el hecho de dotar al entorno de los núcleos urbanos, generalmente antropizado y carente de recursos naturales de conservación prioritaria, del mismo nivel de protección asignado al resto del territorio del Parque Natural, puede entrar en conflicto con el desarrollo de iniciativas y actividades que promuevan el desarrollo sostenible de estos pueblos, sin afección a los valores ambientales del Parque Natural.

Por ello, se consideró la conveniencia de modificar el régimen de protección de determinadas zonas colindantes a los núcleos urbanos, sin recursos naturales a conservar ni proteger (al tratarse generalmente de zonas de antiguas eras, cultivos abandonados, huertos, o terrenos con construcciones agropecuarias), pasando a tener la consideración de Zonas Periféricas de Protección. Estas zonas, cuyo objetivo es amortiguar la incidencia de impactos externos negativos sobre el espacio protegido, se delimitan tanto en las zonas colindantes externas al espacio, como en las zonas fuertemente antropizadas en el entorno de cascos urbanos y zonas con infraestructuras agropecuarias o usos industriales (canteras, polígonos industriales, etc.). Con ello se gradúa el esfuerzo de la protección, ajustando así la regulación de usos y actividades al valor ambiental real de la zona de la que se trate.

Por todo ello, se ha considerado que estas zonas periurbanas que no reúnen las características señaladas por el artículo 41 de la Ley 9/1999, de 26 de mayo, de Conservación de la Naturaleza, para los Parques Naturales (áreas naturales poco transformadas por la ocupación o explotación humanas, que en razón a la belleza de sus paisajes, la representatividad de sus ecosistemas o la singularidad de su flora, de su fauna o de sus formaciones geomorfológicas, posean unos valores ecológicos, estéticos, educativos y científicos cuya conservación merece una atención preferente), pasen a tener la consideración de Zonas Periféricas de Protección del Parque Natural de la Sierra Norte de Guadalajara.

De este modo, cada casco urbano contará con una Zona Periférica de Protección destinada a prevenir y evitar la incidencia de impactos externos sobre el Parque Natural, y que también permita regular la intensidad de la regulación de usos acorde con el valor ambiental de la zonificación. Esta zona también permitiría el desarrollo rural sostenible de estos municipios, aunque seguirían siendo parte del Espacio Natural Protegido y estarían reguladas sus actividades para evitar impactos negativos.

Se expone esta cuestión en la Junta Rectora del Parque Natural de la Sierra Norte de Guadalajara celebrado el 13 de marzo de 2020 en la localidad de El Ordial, donde se informa favorablemente la propuesta de modificación de los límites del Parque Natural con la inclusión de la figura de Zona Periférica de Protección en los entornos de los cascos urbanos por unanimidad que en total suman 1.311,45 ha.

La relación de municipios en los que parte de la propuesta como parque natural pasaría a zonas periféricas de protección y la superficie por término municipal se indican en el Anejo I de este acuerdo

Además, la Reserva Fluvial río Pelagallinas, con una superficie de 363 ha y declarada por Decreto 287/2003 de 07-10-2003, en los términos municipales de Albendiego, Condemios de Arriba, Condemios de Abajo, Gascueña de Bornova y Prádena de Atienza, está íntegramente enclavada en el territorio del Parque Natural de la Sierra Norte de Guadalajara, y se considera que por optimización de la gestión y por los elevados valores naturales que alberga, sería conveniente su inclusión íntegra en el Parque Natural de la Sierra Norte de Guadalajara.

Respecto al capítulo 5 del PORN, Régimen general de los usos y actividades, existen algunos aspectos que, para favorecer la gestión y mejorar la conservación del espacio, es necesario matizar, como la regulación de obras hidráulicas que puedan ser necesarias en el futuro, teniendo en consideración el contexto de cambio climático y armonizando la regulación sobre este aspecto establecida en otros Parques Naturales de la región y, por otro lado, la necesidad de modificar la regulación de determinadas actividades que son precisas para la adecuada gestión del espacio natural protegido, en la Zona de protección especial del parque natural (Pico del Lobo-Hayedo de Tejera Negra).

Una vez examinados los estudios que dieron lugar a la aprobación del PORN de la Sierra Norte de Guadalajara, así como los informes del Servicio de Medio Natural y Biodiversidad de la Consejería de Desarrollo Sostenible en Guadalajara y la información disponible respecto a los recursos naturales protegidos en el ámbito del Parque Natural de la Sierra Norte de Guadalajara cabe entender que las zonas de los términos que se relacionan a continuación y que se pretenden desafectar de la figura de Parque Natural y pasar a Zona Periférica de Protección no contienen elementos destacables para la conservación de los recursos naturales careciendo de formaciones arboladas, matorrales evolucionados o hábitats de interés especial o de interés comunitario relevantes siendo terrenos antropizados correspondientes con antiguas zonas de cultivos, cercados agrarios, ganaderos, etc...

Del mismo modo se entiende conveniente que, tanto para favorecer la gestión y mejorar la conservación del espacio, como a efectos de la necesaria adaptación ante los efectos adversos del cambio climático, es necesario matizar y establecer pequeñas modificaciones en el Capítulo 5. Régimen general de los usos y actividades.

Teniendo en cuenta lo anterior en aplicación del artículo 29 de la Ley 9/1999, de 26 de mayo, de Conservación de la Naturaleza, y previa deliberación del Consejo de Gobierno, se acuerda:

Primero: Iniciar el procedimiento para:

1. Modificar el Decreto 215/2010, de 28 de septiembre, por el que se aprueba el Plan de Ordenación de los Recursos Naturales de la Sierra Norte de Guadalajara y se inicia el procedimiento para la declaración del Parque Natural de la Sierra Norte de Guadalajara, quedando definida la Zona Periférica de Protección como se refleja en el Anejo II de ese Acuerdo.

2. Integrar la Reserva Fluvial del Pelagallinas declarada por Decreto 287/2003, de 7 de octubre de 2003, por el que se declara la Reserva Fluvial "Río Pelagallinas" en los términos municipales de Albendiego, Condemios de Abajo, Condemios de Arriba, Gascueña de Bornova y Prádena de Atienza, en la provincia de Guadalajara, en el Parque Natural de la Sierra Norte de Guadalajara, derogando el Decreto de su declaración.

3. Modificar el Capítulo 5. Régimen general de los usos y actividades del PORN.

Como consecuencia de las modificaciones anteriores la superficie estimada de Parque Natural pasaría de 117.898 ha a 116.949,55 ha. y la de Zona Periférica de Protección de 6.708 ha a 8.019,45 ha.

Segundo: El presente acuerdo surtirá efectos desde el día siguiente al de su publicación en el Diario Oficial de Castilla-La Mancha.

Toledo, 19 de enero de 2021

El Secretario del Consejo de Gobierno
JOSÉ LUIS MARTÍNEZ GUIJARRO

Anejo I. Relación de las 43 zonas incluidas íntegra o parcialmente en el Parque Natural, en el entorno de los núcleos urbanos, que se proponen como Zonas Periféricas de Protección. Estas 43 zonas suman una superficie total de 1.311,45 ha.

Termino Municipal	Núcleo	Área (Ha)
Arroyo de Fraguas	Arroyo de Fraguas	22,47
Bustares	Bustares	84,72
Campillo de Ranas	Espinar, El	7,31
Campillo de Ranas	Roblelacasa	12,72
Campillo de Ranas	Robleluengo	14,20
Campillo de Ranas	Campillo de Ranas	46,16
Campillo de Ranas	Campillejo	12,74

	Total Superficie	1311,45

Anejo II. Descripción de límites de las nuevas zonas periféricas de protección del Parque Natural de la Sierra Norte de Guadalajara.

Las nuevas Zonas Periféricas de Protección abarcarían una superficie de 1.311,45 hectáreas que sumadas a las 6.708 hectáreas de la Zona Periférica de Protección actual sumarian un total de 8.019,45 hectáreas.

Formarían parte de la misma los terrenos incluidos dentro de las poligonales descritas por términos municipales y por las siguientes coordenadas UTM que están referidas al Huso 30.

Aldeanueva de Atienza
